February 12, 2010 - Sales Bulletin

Effective with shipments on and after Monday, March 15, 2010, prices will increase for these products:

- **All SHEETROCK® brand gypsum wallboard products will increase 20% per MSF.**

Several factors are influencing this increase. Price for wallboard fell throughout 2009, and U. S. Gypsum Company has reported losses for the last 10 quarters. As we begin 2010, raw materials are starting to rise, increasing our cost to produce wallboard. Although we realize our customers are experiencing many of the same issues, we must reverse this trend and return to profitability.

Your USG Sales Representative will be delivering new price lists that will reflect this increase within the next two weeks. Our goal remains to offer you the best products at the best value. We appreciate your business and look forward to continuing to serve you. If you have any questions, please contact your local USG Building Systems Representative.
